Game: Bat Tapping

Each player has a suitable batting instrument and ball. The aim is to keep the ball in the air with the bat for as long as possible.

What you need:

- 1 ball and batting instrument per player e.g. tennis racquet, cricket bat, baseball bat, table tennis paddle, pickle ball bat etc.

How to play:

- Players tap their ball on their bat and count the number of consecutive taps they get
- If a player drops their ball, they start counting from the beginning
- TIP: Try to beat your score each time you play. If playing with others try and beat their score- the highest score wins!

Change it up:

- Allow players one bounce on the ground in between taps
- Vary the bat and ball
- Play cooperatively in pairs or small groups hitting the ball to one another. Vary the distance between each player to make it harder
- See how many times players can tap the ball on different parts of the bat
- Players try to hop/jump as many times as they can while the ball is in the air

Hydrate with H2O

Did you know your body is made up of 50-70% water?

Water is essential in a healthy diet. It helps transport nutrients through our bodies, digest food, remove waste, regulate body temperature, and also keeps our teeth and mouth healthy.

As we come into summer, it's important to keep our bodies hydrated.

Encourage your child to choose water as a drink by:

- Packing a water bottle in their school bag everyday
- Packing a frozen water bottle in their lunchbox during summer
- Encouraging your child to drink water when playing sport
- Serving plain water in a jug. Try adding ice-cubes and fresh fruit pieces such as lemon, orange, blueberries or strawberries for flavour
- Using a re-usable drink bottle that your child has chosen
